Section 2 - Project Details

Project title

Provide a short informative title in a language accessible to a non-expert audience.

No Response

Project duration

Provide the anticipated number of months duration of the project (projects are not expected to exceed a total of 36 months duration).

No Response

Research summary

Provide a summary of the proposed research, written in accessible language.

No Response

Justification

Provide justification for seeking CSO funding and not from another funder. Please note that an application for essentially the same, or similar project, should not be under consideration by another funder. If a significant element of the research has been rejected previously by a research funder (including CSO), please explain the basis of the rejection and how this has been addressed.

No Response

Case for proposed research

Set out and explain the research question(s). Provide the case for the proposed research and its value and importance for patients, the public, the Scottish Government, NHS and/or wider health system in Scotland.

Provide evidence, including through review of the literature, patient/public/service perspectives and/or other data, demonstrating the need for the research, its originality, value and importance.

No Response

Patient, public and organisation involvement

Set out and explain how patients, public, and organisations that may use the research findings have, and will be, engaged in the design and conduct of the research as well as its translation into policy and/or practice. Also describe the plans for the dissemination and knowledge mobilisation of the research findings.

Research plan

Please upload your research plan in a separate document. This should be no longer than 3 pages completed in un-justified Arial, font size 12. Please ensure that you describe and justify the following in you research plan:

- How the study will address the research question(s)
- The research plan and of the feasibility of the study
- The research methods employed and, where appropriate, participant recruitment criteria and approaches, sample sizes including justification, and evidence to support estimated recruitment and retention rates. Applicants should consider carefully their recruitment approach(es) to ensure that the recruited cohort(s) can be as closely representative and inclusive of the diversity of the target population as possible or practicable. Applicants should consider use of the Scottish Health Research Register (SHARE, SHARE | RegisterforSHARE) and/or seeking advice from the relevant NHS Research Scotland Clinical Research Network (Research Areas | NHS Research Scotland | NHS Research Scotland) to support recruitment

Section 3 - Funding request

Total funding requested

Provide the total funding requested from CSO (funding requested cannot be more than £350,000 at 80% Full Economic Costs). Please ensure that this is the same value as the Total Cost to Funder in the budget table below.

Project budget

Please complete the budget table.

The table has been pre-populated with items under each budget heading. You can remove unused rows using the **Remove Item** icon. You can add additional items using the **Add a New Item** icon. Please refer to the guidance for further details on how the budget should be set out. This can be viewed here: [guidance document](#).

The funding threshold is £350,000 at 80% of Full Economic Costs (FEC). This limit will be rigorously applied by CSO to all applications progressing to the full proposal stage, thus the indicative costs presented must be realistic. Co-funded applications are welcome and, in these cases, the CSO funding threshold would remain at £350,000 (80% FEC).

At this stage of the application process, it is not necessary for the requested funding to be broken down by year.
